1. Receipt is acknowledged of the restriction response filed December 01, 2003.

2. Claims 1-6 are pending in this application.

3. Applicant has elected without traverse Group I, claims 1, 2 and 4.

Claims 3 and 5-6 have been withdrawn from consideration.

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 4 are rejected under 35 U.S.C. 102(b), as anticipated by He et al, reference AAH, see page 5823 column 1, which discloses a compound within the scope of the claimed generic formula and the isolation of the compound by employing a solvent that meets claim 4. A new use of an old composition is not patentable for the claimed composition.

5. Claim 2 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
